Signature of Committee Treasurer or Chairperson

Revised July 2001

Filed this 1st day of November, 20 02

Joyce Hazelton

SECRETARY OF STATE

The first of these is the fact that the system is not a simple one. It is a complex system, and the complexity is not only in the number of variables, but also in the nature of the variables. The second is the fact that the system is not a static one. It is a dynamic system, and the dynamics are not only in the number of variables, but also in the nature of the variables. The third is the fact that the system is not a linear one. It is a non-linear system, and the non-linearity is not only in the number of variables, but also in the nature of the variables.

The first of these is the fact that the system is not a simple one. It is a complex system, and the complexity is not only in the number of variables, but also in the nature of the variables.

The second is the fact that the system is not a static one. It is a dynamic system, and the dynamics are not only in the number of variables, but also in the nature of the variables.

The third is the fact that the system is not a linear one. It is a non-linear system, and the non-linearity is not only in the number of variables, but also in the nature of the variables.

The fourth is the fact that the system is not a homogeneous one. It is a heterogeneous system, and the heterogeneity is not only in the number of variables, but also in the nature of the variables.

The fifth is the fact that the system is not a uniform one. It is a non-uniform system, and the non-uniformity is not only in the number of variables, but also in the nature of the variables.

The sixth is the fact that the system is not a continuous one. It is a discontinuous system, and the discontinuity is not only in the number of variables, but also in the nature of the variables.

The seventh is the fact that the system is not a discrete one. It is a continuous system, and the continuity is not only in the number of variables, but also in the nature of the variables.

The eighth is the fact that the system is not a finite one. It is an infinite system, and the infinity is not only in the number of variables, but also in the nature of the variables.

The ninth is the fact that the system is not a bounded one. It is an unbounded system, and the unboundedness is not only in the number of variables, but also in the nature of the variables.

The tenth is the fact that the system is not a closed one. It is an open system, and the openness is not only in the number of variables, but also in the nature of the variables.

The eleventh is the fact that the system is not a self-contained one. It is a system that is dependent on its environment, and the dependency is not only in the number of variables, but also in the nature of the variables.

The twelfth is the fact that the system is not a self-sufficient one. It is a system that requires external inputs, and the requirement is not only in the number of variables, but also in the nature of the variables.

The thirteenth is the fact that the system is not a self-organizing one. It is a system that requires external organization, and the requirement is not only in the number of variables, but also in the nature of the variables.

The fourteenth is the fact that the system is not a self-regulating one. It is a system that requires external regulation, and the requirement is not only in the number of variables, but also in the nature of the variables.

The fifteenth is the fact that the system is not a self-optimizing one. It is a system that requires external optimization, and the requirement is not only in the number of variables, but also in the nature of the variables.

The sixteenth is the fact that the system is not a self-improving one. It is a system that requires external improvement, and the requirement is not only in the number of variables, but also in the nature of the variables.

The seventeenth is the fact that the system is not a self-protecting one. It is a system that requires external protection, and the requirement is not only in the number of variables, but also in the nature of the variables.

The eighteenth is the fact that the system is not a self-renewing one. It is a system that requires external renewal, and the requirement is not only in the number of variables, but also in the nature of the variables.

The nineteenth is the fact that the system is not a self-sustaining one. It is a system that requires external sustenance, and the requirement is not only in the number of variables, but also in the nature of the variables.

The twentieth is the fact that the system is not a self-perpetuating one. It is a system that requires external perpetuation, and the requirement is not only in the number of variables, but also in the nature of the variables.

The twenty-first is the fact that the system is not a self-replicating one. It is a system that requires external replication, and the requirement is not only in the number of variables, but also in the nature of the variables.

The twenty-second is the fact that the system is not a self-reproducing one. It is a system that requires external reproduction, and the requirement is not only in the number of variables, but also in the nature of the variables.

The twenty-third is the fact that the system is not a self-generating one. It is a system that requires external generation, and the requirement is not only in the number of variables, but also in the nature of the variables.

The twenty-fourth is the fact that the system is not a self-producing one. It is a system that requires external production, and the requirement is not only in the number of variables, but also in the nature of the variables.

The twenty-fifth is the fact that the system is not a self-creating one. It is a system that requires external creation, and the requirement is not only in the number of variables, but also in the nature of the variables.

The twenty-sixth is the fact that the system is not a self-forming one. It is a system that requires external formation, and the requirement is not only in the number of variables, but also in the nature of the variables.

The twenty-seventh is the fact that the system is not a self-organizing one. It is a system that requires external organization, and the requirement is not only in the number of variables, but also in the nature of the variables.

The twenty-eighth is the fact that the system is not a self-renewing one. It is a system that requires external renewal, and the requirement is not only in the number of variables, but also in the nature of the variables.

Name of Candidate or Committee Jenaval County Republicans
For the reporting period ending Oct 26, 2002

Schedule A - Direct Contributions

This schedule is used for reporting all direct contributions. You must keep a record of all contributors, but for this report you may combine all contributions of \$100 or less from individuals and the same from political parties and enter these sums as unitemized contributions on their respective lines below and on the next page. Any contribution of more than \$100 or aggregate during a calendar year from an individual or political party and all contributions from PAC's must be entered as a separate item (itemized) giving the amount, name, address and place of employment (if applicable) of the contributor. Each type of contributor has their own section for itemization. This schedule may be duplicated if you need more space, or you may attach additional sheets of paper.

Unitemized Contributions from Individuals:

Name of Candidate or Committee Jerauld County Republicans
For the reporting period ending Oct 26, 2002

Schedule B - Fund-Raising Events Proceeds

List on this schedule fund-raising events held to raise money for the candidate and the net proceeds derived from each event. If a contributor gives more than \$100 or their contribution results in their aggregate being more than \$100 in the calendar year, those contributions must be itemized on Schedule A.

Type of Event	Net Proceeds
Spring Pie Social Meet Candidates	264.25

Total: \$ 264.25

Schedule C - In Kind Contributions

Report all non-cash contributions of goods or services and the estimated fair market value. If the value exceeds \$100, the name of the contributor, residence address and place of employment must be reported.

Nature of Non-Cash Contribution	Estimated Value	Name of Contributor
---------------------------------	-----------------	---------------------

Total: \$ - 0 -

Schedule D - Other Income

Use this schedule to report any refunds, interest earned or other income which is not a direct contribution.

Source of Income	Amount
------------------	--------

Total: \$ - 0 -

Name of Candidate or Committee Jerard County Republicans

For the reporting period ending Oct 26, 2002

Schedule E - Expenditures

This schedule is to report all expenditures relating to a candidate's campaign. Line items have been provided for reporting common expenses. All other expenses should be listed. **All contributions to candidates and committees must be listed individually.**

Item	Amount	Contributions Made to Candidates and Committees:
Advertising	<u>41.40</u>	
Consulting	<u> </u>	
Postage	<u> </u>	
Printing	<u> </u>	
Rent	<u>30.00</u>	
Salaries	<u> </u>
